

Case Analysis Consulting Group

Accelerate Your Success

The LexisNexis® Case Analysis Consulting Group offers a variety of phone-based, Web-based and in-person training options to help you learn more about the CaseMap® suite of case analysis products: CaseMap case analysis software, TimeMap® timeline software and TextMap® electronic transcript management software. We also show you how to use these exclusive tools to improve your early case assessment process.

On-site Options

CaseMap® Jumpstarts

Let one of our case analysis consultants conduct a CaseMap Jumpstart with your trial team focusing on a pending matter. In this collaborative brainstorming exercise, our consultant acts as moderator guiding the session, as a scribe quickly organizing material in CaseMap, and as an educator showing your team how to take the ball forward.

By the time the session ends, the consultant will have worked with your trial team to create:

- A detailed cast of characters
- A multi-level issue outline
- An initial fact chronology
- A Case Summary ReportBook or other work product for your client
- A plan for additional analysis

Early Case Assessment Consulting

The LexisNexis Case Analysis Consulting Group can help your trial teams and litigation support professionals quickly and effectively gain greater control over your cases.

Learn proven ways to:

- Quickly identify and gather early factual, legal and strategic case information
 - Jump-start and organize your case to identify early risk, assess case strengths and weaknesses, and determine what may still be missing.
 - Identify strategic factors that may impact your case, including parties' litigation tendencies and experience levels.
 - Identify previous settlement amounts in similar cases and prior judgments and/or verdicts from similar cases.
- Effectively organize early case information by connecting critical details in one place
 - Quickly set up, organize and link your case facts, cast of characters and documents to your research and issues.
 - Easily review relationships between your facts, issues and research to identify case strengths and weaknesses and confirm that you can prove or defend the issues within your case.
 - Identify and detail outstanding questions particular to your case to fill the factual and/or legal holes identified.

Open-Enrollment Classes

Thousands of clients have attended the open-enrollment classes we teach in 20+ cities in the United States and Canada. Open-enrollment programs include:

- CaseMap 201
- CaseMap Support/Training Certification (STC)

Sample topics from the CaseMap 201 agenda:

- CaseMap Strategies
- Sorting & Searching in CaseMap
- Creating Great Work Product
- Using the “Send to CaseMap” Feature in Adobe® Acrobat®

Live and Taped Webinar Training

We offer CaseMap 201, Support/Training Certification, Paralegal Certification and Become a Power User (BAPU) as four separate 120-minute live Web-training sessions scheduled over two days. These Webinars use the same materials covered in our open enrollment trainings.

We also feature more than 50 taped Webinar tutorials at <http://law.lexisnexis.com/casemap/training>. The Webinars cover various topics from introductory sessions on using CaseMap, TimeMap and TextMap to advanced tips and tricks. Most sessions run under 20 minutes and new sessions are added regularly.

No-Charge Training Choices for Clients on Subscription Support

CaseMap and TimeMap Work Product Tour

Our CaseMap and TimeMap Work Product Tour is a no-charge phone training option. It's a 45-minute session that we conduct for trial teams and litigation section meetings.

The tour provides an overview of the many types of work product available using CaseMap and TimeMap. It's a great way to familiarize those who won't be using CaseMap or TimeMap directly with the wide range of reporting options available to them.

CaseMap Fundamentals Phone Training

This 60-minute complimentary phone training teaches you the fundamentals of CaseMap. The course is typically conducted one-on-one and hands-on. Please call us to set up a time!
