

# Best Authority

Software for Building Tables of Authorities

## Our Customers Say It All

*140 law firms, including 55 of the top 250, have already switched to Best Authority.*

### More Accurate- Five Times Faster

Joe Russo,  
Manager of Paralegals,  
Proskauer Rose

“The top three things I love about Best Authority are its *accuracy*, *speed*, and *ease of use*. It’s so easy to edit the table of authorities, and you can both correct the table and correct the brief.”

### Eight Times Faster

Heather Morrow,  
Senior Learning Coordinator/  
Courseware Developer,  
Loeb and Loeb

“I am a big fan of your product, having come from an environment where we had to mark every cite. A document that once would have taken me 2+ hours to mark, I can now do in 15 minutes.”

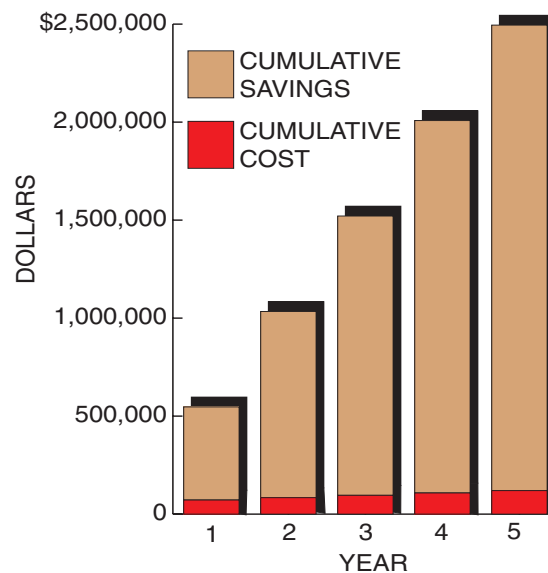

### Page Numbers 100% Correct

Janet Rose,  
Technology Manager, Poyner Spruill LLP

“Before we found Best Authority, our paralegals and attorneys used another TOA product. Manually checking every page number was usually such a problem that our personnel would ultimately create the TOA by hand. With Best Authority, the firm’s employees are virtually guaranteed a 100% accurate pagination regardless of how many times attorneys revise the document.”

### Remarkable Cost Savings

A large New York City-based law firm switched to Best Authority this year—they report that they reduced the amount of time to generate a TOA, from 2.5 hours to 30 minutes. Over the next five years, this firm has calculated that they will eliminate millions of dollars in unnecessary billings to clients. Even if your savings are less, Best Authority will still save you a great deal of time and money.
