LexisNexis® Managed Network Services, offers an innovative solution to provide continuous online backup, off-site electronic vaulting, and guaranteed recovery of server data. All backups are performed automatically over network connections to remote, secure off-site data centers so your data is always protected and available for immediate recovery.

No more tapes to purchase, handle, transport, catalog or store. LexisNexis Data Backup and Recovery Service—powered by LiveVault® can help eliminate the costs, human error, and data loss risks inherent in manual backup procedures.

**Continuous Online Backup**
With LexisNexis Data Backup and Recovery Service, your backup is:
- always current
- continuous
- automatically moved off site
- immediately recoverable

This award-winning patented technology minimizes both server load and bandwidth utilization. And now you can easily backup data that has been difficult to protect, including open, changing files and databases such as Exchange, SQL, and Oracle.

**Assured Off-Site Data Protection**
With LexisNexis Data Backup and Recovery Service, your data is protected every step of the way. Using state-of-the-art security including AES encryption, VPN tunneling, and digital certificates, LexisNexis ensures the security of your firm's data.

With the connection-resilient Virtual Backup Network (VBN™) and redundant service architecture, you can be sure that your backup is consistently executed and your firm's data is entirely protected.

**TurboRestore On-Site Remote Protection**
For firms with multiple offices, LexisNexis now offers LiveVault® TurboRestore, an on-site rapid recovery appliance that provides complete protection of remote location data. TurboRestore is seamlessly integrated into the LexisNexis Data Backup and Recovery Service and requires no management at the remote location. Through this combination of on-site and off-site storage, you are ensured fast, local recovery times, as well as protection against site-level failures.

<th>Key Features</th>
<th>What it Means to You</th>
</tr>
</thead>
<tbody>
<tr>
<td>Continuous Online Backup</td>
<td>Current backup of even open, changing databases and files.</td>
</tr>
<tr>
<td>Automatically Off Site</td>
<td>Secure off-site data vaulting in world-class data centers.</td>
</tr>
<tr>
<td>Guaranteed Recovery</td>
<td>Immediate recovery of current and historic files—guaranteed.</td>
</tr>
<tr>
<td>Web Management Portal</td>
<td>Manage entire backup and data recovery from any Web browser.</td>
</tr>
<tr>
<td>Expertly Managed 24/7</td>
<td>Automatically detects problems at any stage of backup or recovery.</td>
</tr>
<tr>
<td>Historical Restore</td>
<td>Easily select files from a catalog of archived versions.</td>
</tr>
<tr>
<td>Virtual Backup Network (VBN)</td>
<td>Connection resiliency during Internet disruptions.</td>
</tr>
<tr>
<td>Disaster Recovery</td>
<td>Physical media shipment ensures business continuity.</td>
</tr>
<tr>
<td>Secure and Private Connections</td>
<td>Password protection, digital certificates, and AES encryption technology.</td>
</tr>
<tr>
<td>User Security</td>
<td>Delegation by server of specific responsibilities.</td>
</tr>
</tbody>
</table>
**Web-Based Management**

While LexisNexis Data Backup and Recovery Service automates all back-end functions, you retain complete control of your backup operations.

Through the Web management portal, you can manage and monitor the entire backup and vaulting process from a Web browser anywhere, anytime.

You can create customized backup policies, check their status, delegate responsibilities across your enterprise, and initiate restore operations whenever needed.

Historical restore technology permits you to easily select the data to be recovered from a catalog of all archived file versions so you can restore up to the point of your data loss. And, in the event of a large-scale disaster, LexisNexis Data Backup and Recovery Service—powered by LiveVault, can deliver your data on Network Attached Storage (NAS) or CD-ROM.

**More Reliable, More Affordable, and Guaranteed**

The extensive backup expertise and superior design provide a more convenient and reliable backup solution for less than most firms pay to do it for themselves.

The convenient, cost-effective services from LexisNexis Data Backup and Recovery Service deliver value beyond what even the best tape backup system can provide: continuous backup, with your data automatically secured off-site, where it is always available for guaranteed recovery.

**The Bottom Line**

In an industry where even a few minutes of irrecoverable data can lead to lost revenue, lost clients, and a severely damaged reputation, look for a data protection service that guarantees your data is always safe, always available. Look to LexisNexis Data Backup and Recovery Services—powered by LiveVault.

**Requirements:**
- Microsoft® Internet Explorer 4.0 or higher
- Minimum 128KB always on Internet connection
